Looking forward to a Glorious Summer in 2021

St Margaret's Hospice Care is hoping to restart their Glorious Somerset Gardens Season in 2021 and have already started planning. Following the disappointment of having to cancel this year's season due to the Coronavirus pandemic, the Glorious Gardens Coordinators are hoping for a bumper year in 2021.

Many of the stunning gardens lined up for 2020 have confirmed their willingness to open in 2021, albeit knowing there may still be restrictions and guidance to adhere to even next Summer.

The hospice is hoping to attract some early February and March gardens to the scheme, extending the season and opportunities to enjoy Glorious Garden across Somerset. If you've got a dazzling display of snowdrops or a splash of early spring bulbs, your garden could help kick start the season with a colourful bang.

If you would like to take part in the 2021 season, please contact Susan on 01935 709182, or by email on fundraising@st-margarets-hospice.org.uk. Full support is given to gardens, including insurance.
