

## **BELL RINGERS FOR ST STEPHEN'S NEEDED!**

Parents! Do you have a teenager or two kicking around the house and who needs a new hobby?

Kids! Do you have parents hanging around the house watching far too many soap operas and reality shows?

Everyone! Do you like the idea of learning a new skill, meeting new people and being part of history?

If so, read on...

Bell ringing at St Stephen's is a tradition that has been carried out for hundreds of years and we are determined to continue to keep it alive!

This is an opportunity to join a really fun team, and learn about bell ringing and when you master it, it is very satisfying. You will have to learn to handle the bell, the rope and learn the importance of timing and following the others.

Most of our ringers have other hobbies and interests outside of ringing and age is not an issue, we have ringers in their teens and well into some higher numbers we can't talk about!

If you are interested in finding out more either pop along to one of our practice sessions, catch us after ringing on a Sunday morning, or give Keith a call on 30731 or Rob a call on 66821, who will be happy to talk it through with you!

And remember, if after a few lessons you feel that it is not for you, you can just walk away happy in the knowledge that at least you gave it a go.

We welcome learners of both sexes and from ages of about 14 years upwards.

Practice sessions are held every Monday night at St Stephen's in Church Street from 7pm to 8pm.
